INVISIBLE WIPER

Innovative formula creates an invisible coating on the windshield to make driving in the rain safer. Watch as the water sheets off the windshield as you gain speed leaving a crystal clear view with minimal streaking. The protective coat also helps to prevent frost build-up in winter and makes it easy to remove mud and insect residue in summer. Also great for use at home in shower stalls and shower enclosures to prevent build-up of dirt and soap scum. Environmentally friendly; no added pigments.
